ULTRASOUND PROBE POSITIONING IMMERSION SHELL

PARTS LIST

10	ultrasound probe		
	positioning	66	tapered
	immersion shell		intermediate body
12	upper cylindrical	68a-b	guides
	body	70a	upper guide edge
14	lower cylindrical	70b	arcuate guide
	body		edge
16	external guide	70c	lower guide edge
	ring	71a	upper guide edge
18a-n	guide surfaces	71b	arcuate guide
20	central axis		edge
22a-n	external vents	71c	lower guide edge
24	lip	72	ultrasound probe
26	fluid transfer	74	central axis
	port	76	keeper tab
28	upper chamber	76a	arcuate surface
30	internal guide	78	lip
	ring	80	fluid transfer
32	tapered region		port
34a-n	guide surfaces	82	upper chamber
36a-n	internal vents	84	slot
38	lower chamber	86	vent
40	threaded hole	88	lower chamber
42	threaded	90	keeper arm
	fastening device	92	lower constant
44	ultrasound probe		radius body
46	constant radius		region
	body region	94	arcuate annular
48	tapered body		region
	region	96	annulus
50	transducer	98	annular groove
52	eye	100	annulus
54	cornea	102	upper constant
56	Luer fitting		radius body
58	saline solution		region
60	ultrasound probe	104	transducer
	positioning	106	cable housing
	immersion shell	108	passageway
62	upper cylindrical	110.	eye
	body	112	cornea
64	lower cylindrical	114	filler tube
	body	•
